

LEAP

COPPERLINK

WARRANTY CERTIFICATE

INTRODUCTION

Leap Australasia Ltd hereby warrants the **CopperLink** Fittings against material or manufacturing defects for a period of **25 years** when installed by a licensed plumber and in accordance with the current published installation guidelines and subject to the following conditions below.

CONDITIONS

- CopperLink fittings must only be used with Copper Tube complying to New Zealand Standard NZS3501:1976.
- CopperLink fittings must only be pressed using CopperLink Press jaws or Leap approved jaws.
- CopperLink fittings are not subject to external physical or chemical damage.
- CopperLink fittings are used only in non-aggressive potable water systems (with pH between 7 and 8) and not installed in systems with aggressive water such as, but not limited to, bore water, tank water, highly sedimented water as well as non-potable water systems.

We also certify that the CopperLink Plumbing System is manufactured under stringent quality with a design life of 50 years and for use in New Zealand subject to the installation requirements outlined in the National Plumbing and Drainage Code, AS3500 parts 1 & 4 and any local water authority requirements.
